

WEALTH

IN TRAINING

While the plan of putting aside a dollar a week will not of itself make you a man of wealth in a short time; it is nevertheless true that there is no better training for the young man or woman just forming life habits.

If carried on several years, this plan of banking a part of the earnings becomes an excellent habit, for it means you have mastered your expenses and are living on less than you earn.

With a reserve set aside for emergencies, WITH MONEY IN THE BANK, there comes a feeling of independence; life is more enjoyable; and your business success is not merely a possibility, but a probability.

Your business solicited, appreciated and Protected
